

October 21, 1944.

Mr. Laron S. Andrus,
Intermountain Title Guaranty Company,
59 East Center Street,
Provo, Utah.

Dear Mr. Andrus: RE: COAL CREEK DISTRIBUTION SYSTEM -
Commissioner's bond, 1943-1944

Thank you for your letter of October 3, 1944, relating to state engineer check No. 6941, \$5.00, issued in favor of Andrus-Hafen Company, St. George, Utah, intended to cover premium on bond No. 301818, running with Glenns Falls Indemnity Company, covering Water Commissioner J. T. Leigh for the season 1944-1945, but which check you applied to cover premium on a bond for same commissioner for the season 1943-1944, which latter bond, you state, was handled by the Andrus-Hafen Company before its dissolution.

Check No. 6941 may be so applied, and state records amended accordingly, provided evidence of the execution of the bond for the 1943-1944 season is placed in my files.

Such a bond was requested of the old company March 15, 1943. No acknowledgment of that letter was received, nor replies to tracers of August 20, 1943, and April 27, 1944. The executed bond was not received in this office. I do not know with what bonding company the business was placed.

What I should have is the bond itself. Will you kindly say by what company it was written, and where the executed bond is lodged.

Yours very truly,

M. H. Watson,
STATE ENGINEER

cc: J. T. Leigh, Water Commissioner,
Coal Creek Distribution System,
Cedar City, Utah.
